THEY HAVE CHOSEN MARSEILLE CHANOT

Marseille Chanot is in the heart of the city. This is very rare, especially for a site of such size. The Metro at the entrance to the park, like the 1.800 parking spaces, facilitated access for our visitors and exhibitors alike. Finally, the assistance of the technical teams is especially efficient and proactive: a great comfort! The organisation of our exhibition in Marseille was a great success in terms of numbers: more than 37.000 visitors in 3 days for our last edition.

Thomas Sirdey, Co-organiser, Japan Expo South (18.600 sqm - 37.000 general public visitors)

The Tradexpo show takes place three times a year, with two events in Paris, and one in Marseille for the first time in May. Marseille provides the show with a central location in the Provence-Alpes-Côte d'Azur region, and access to Mediterranean countries and North Africa, a strategic area for our development. Marseille gave us an excellent welcome, particularly thanks to support from local institutional partners who had backed the Tradexpo project right from the start. Marseille is the perfect host for professional events of excellence, and for helping them grow.

Sébastien Gillet, Head of the Tradexpo show**

As the SONEPAR distributor network for the PACA and Languedoc-Roussillon regions, we opted for Marseille for the 6th edition of our SIDEC fair, as much for geographical location as for capacity. In tandem with the Palais des Evènements that we used for our exhibition spaces, we were able to make the most of the just-built Palais de l'Europe to host lunch for between 1.000 and 1.400 people a day. Just steps from one another, these two halls function with perfect synergy.

Julie Favrot, Director of Communicatio Sonepar Sud Est, SIDEC Fair (6.500 sgm - 3.000 professional visitors)
