# SAFIM is helping you with The Health Measures Guide

**MARSEILLE  
CHANOT**  
PALAIS DES CONGRÈS & DES EXPOSITIONS

You plan to organize an event at Marseille Chanot, Convention center and exhibitors of Marseille.

With the special situation of Covid-19, Safim set up all the necessary measures to secure your event based on the following texts:

- **Decrees and Orders published on the Official French Republic Newspaper**
- **National Protocol of deconfinement for company in order to ensure health and security of their employees**
- **Sanitary Standards of the Event Subsidiary** (Group with Coésio, Crealians, France Congrès et Événements, L'Événement, Synpase, Traiteurs de France and Unimev).
- **Health Charter of Marseille Provence Safe Welcome** (The approach of SARM is linked with the approach of tourism as hotels and restaurants).

Since the date of publication of this guide, some measures are not yet updated, for example any gauge limitations depending on the types of events.

Moreover, some practices will stay in the time, some other will involve with time: this version of this guide will be updated regularly during the following months.

You can be sure of our commitment to help you to set up the best measures in order to secure everybody: Permanent and Temporary teams, suppliers, customers and public.

Many thanks for your trust.

**Marseille Chanot Team - SAFIM**

# 1.

## REINFORCED CLEANING, ASSOCIATED MEASURES AND DISINFECTION

## CHANOT MEASURES

### Before Assembly

#### CLEANING

- **Complete Cleaning before each new use of a building.**

*Except if the place wasn't occupy during the last 5 days, the usual cleaning is enough to protect people.*

#### DISINFECTION

- **Disinfection of all the contact human point before each new use of a building.**

*Door handles, pull bars, code keypad, elevator buttons, switches, toilets, stair railings, computers, tables,...*

#### OTHERS MEASURES

- **Purging drinking water networks before each new use,**

Keep sink water in order to evacuate the stagnated volume of water under the pipes during the closed time.

- **Natural or Mechanical Ventilation of the place before each new use.**

- **Hand washing access point for deliveries.**

*At the Gate C (Delivery Main access) and at the Warehouse of the Convention Center.*

## CHANOT MEASURES

### Assembly and Disassembly

#### BATHROOMS

- **Increasing the number of accessible bathrooms**  
*Unless one bathroom bloc for 3,500 m<sup>2</sup> building surface.*
- **Increasing in the frequency of sanitary maintenance and disinfection of contact human points.**  
*During the assembly and the disassembly, 2 times per day, and 4 times per day when exhibitors are on site.*

### During Presence of Public

#### DISINFECTION

- **Integration of the disinfection contact human points in the “Health Permanence” service.**  
*This permanence is in charge of the contact human point of the bathroom block: handles, taps, flushes,...*

#### VARIOUS MEASURES

- **Washable and re-usable Hand towel**  
*SAFIM is committed to sustainable development (ISO 20121): rather than generating additional waste with single use paper towels, we offer you washable and reusable hand towels. The official texts mention single-use hand towels and not disposables ones.*
- **Natural or Mechanical Ventilation of the place before each new use.**

For all the measures described above, the organizer has the option of ordering frequency of reinforcements on demand..

## ORGANIZER MEASURES

### During Presence of Public

#### DISINFECTION

- **Disinfection service dedicated to the disinfection of contact human points.**  
*Possibility of extension to contact points located on the stands.*  
*In addition to the health permanence.*

## TO PROTECT YOURSELF AND OTHERS FROM CORONAVIRUS

Wash your hands very often

When coughing or sneezing, cover your mouth and nose with your arm or use a disposable tissue

Dispose of any tissues you have used

Avoid close contact when greeting people

# 2. Barrier Gestures

# CHANOT MEASURES

### WASHING AND HANDS DESINFECTION

- **Installation of hydro-alcoholic gel dispensers at the Parc Chanot Gates: A, B et C**  
*Including gel replenishment, cleaning and regular disinfection.*
- **Supply of a hydro-alcoholic dispenser at the main entrance of each building (1 for 1750 m2 of rented area)**  
*Including gel replenishment, cleaning and regular disinfection.*
- **Provision of hand washing point accessible for deliveries.**  
*At the Gate C (Delivery Main access) and at the Warehouse of the Convention Center.*

# ORGANIZER MEASURES

### WASHING AND HANDS DESINFECTION

- **Supply of additional hydro-alcoholic gel dispensers: At the Conference Rooms Entrances, Catering Areas, Elevators, etc.**  
*Including gel replenishment, cleaning and regular disinfection.*

### During Presence of Public

### CONTROL OF SANITARY PASS

- **A control of Sanitary pass\* must be assured by the organizer by its own means (human, logistic, financial and technical resources under his responsibility)**  
*This service can also be proposed by SAFIM*

*\* consists of presenting a health evidence in a digital format or on a paper format*

# 3.

## PHYSICAL DISTANCIATION AND FLOW REGULATION

# CHANOT MEASURES

### Before Assembly

#### PHYSICAL DISTANCIATION, MAXIMUM CAPACITY OF ROOMS AND SPACES

→ **Monitoring of the current regulation in order to adapt the maximum capacity of rooms and spaces**

*The capacity of the different rooms and spaces are given in our technical documents and commercial brochures.  
They are indicated as “normal”*

*They can be applied according to the current sanitary situation \**

*The reduction of the maximum capacity of rooms and spaces have been lifted by the authorization for conferences, exhibitions and catering*

*\*Subject to change*

#### FLOW REGULATION

→ **Advice to the organizers for setting up queues or barriers.**

# CHANOT MEASURES

### During Presence of Public

#### PHYSICAL DISTANCIATION

- **Plexiglas screens on reception desks (RSFE)**  
*Service limited to reception desks included in the rental rates or conferences areas.*

#### FLOW REGULATION

- **Increase of the width of the pedestrian circulation on gate A to the Grand Palais.** *Reduction of roads dedicated to vehicle traffic.*

# MEASURES FROM THE ORGANIZER

### FLOW REGULATION (PN ET RSFE)

→ **Markings on the floor**

→ **Access control** *guaranteeing the respect of flows regulation measures of sanitary passport prior to accessing the event.  
The use of a professional security service provider is compulsory (volunteers and voluntary workers excluded).*

Sanitary pass control is mentioned in part 2 – Barrier Gestures (p.10)

# ORGANISATIONAL AND QUALITY

La société

a missionné Bureau Veritas Exploitation pour vérifier l'adéquation des mesures de prévention au risque Covid-19 de l'établissement situé à :

**Parc Chanot**  
**13008 Marseille**

Cette vérification porte sur son activité de :  
**Gestionnaire de Site**

Cette vérification a été faite à partir du référentiel suivant :

- Le Protocole National pour la Santé et la Sécurité des salariés face à l'épidémie de COVID-19 du Ministère du Travail - 1 Septembre 2020 ;
- Les fiches Conseil « COVID-19 » métier publiée par le Ministère du Travail ;
- Le Référentiel Sanitaire de la Filière Événementielle – 17 juin 2020 ;
- Le rapport de préconisations Bureau Veritas référencé 9513332-2.

Cette vérification a été menée :

lors d'une visite sur site le 25 Septembre 2020 à 9h00

La vérification a conclu à l'avis :

**Mesures de prévention adaptées à la maîtrise du  
risque sanitaire\***

Cette attestation est délivrée pour servir et valoir ce que de droit.

Fait à Aix en Provence, le 5 Octobre 2020

Pour Bureau Veritas Exploitation

David CARLE

\* La mise en oeuvre et le maintien dans le temps du dispositif reste de la responsabilité de l'entreprise

BUREAU VERITAS EXPLOITATION

www.bureauveritas.fr

# CHANOT MEASURES

### SAFIM ORGANISATION

→ **Appointment of a health risk referent within SAFIM team**

*The SAFIM referent is in charge of coordinating all the measures, with the support of the Quality Manager.*

*The organizer must design its own health risk referent, as this function cannot be performed by SAFIM's health referent..*

### CERTIFICATION ISO 20121

→ **Adaptation of the ISO 20 121 references**

*All the measures listed in this guide are in agreement with the ISO 20 121 certification of SAFIM. All the feedbacks and logic of continuous improvement are extended to health risks.*

### HEALTH MEASURES LABELLING

→ **Guide of measures to ensure the health and safety of the public.**

*This guide is accompanied by an audit grid and an evaluation protocol.*

# CHANOT MEASURES

### SAFIM SUPPORT

- **For all the measures described above, SAFIM may provide advice to professionals designated by the organizer.**  
*The organizer's health risk referent will be able to count on the SAFIM's assistance to evaluate the risks inherent to each one and to define the appropriate means of prevention, or even rely on his feedback for the implementation of preventive and corrective measures during the event.*
- **Organization of an organizer meeting / SAFIM Debriefing / Feedback after the event** *SAFIM regularly organizes an information session meeting for its operating employees and service providers.*

5.

# SIGNAGE AND COMMUNICATION

# CHANOT MEASURES

### SIGNAGE

- Display of barriers gestures at the main entrances of Parc Chanot, Gates A, B, C.

# MEASURES FROM THE ORGANIZER

### SIGNAGE

- Display measures specific to the event at the entrance doors of the buildings.
- Personalized signage with instructions adapted to the choice of the organizer, possibility of personalization with sponsor's logo, etc...

*For example: The control of sanitary pass / Wearing a mask....*

# 6. TRAINING

# CHANOT MEASURES

### TRAINING

- **Training on “How to manage Covid” for Security staff and subcontractor suppliers**  
*Training before the event on barrier gestures, site specifics and procedures in the event of a suspected case being discovered, etc...*
- **Online training platform, allowing staff to acquire the necessary notions before arriving at Parc Chanot.**  
*Training traced and enhanced by issuing diplomas attesting to the acquisition of the required notions.  
Checking the knowledge of new employees before their first visit to Parc Chanot.  
Possibility for all trained staff to return to the platform if they wish.*

**GEL HYDRO-ALCOOLIQUE
